Compassionate, dependable Full Stack Web Developer with a 15+ year track record of making sure the customer knows that they come first. Passionate about using leveled-up JavaScript and React skills to build performant web applications for health and educational companies who make the world a better place.

Skills

- HTML/CSS and Responsive Design
- JavaScript and JavaScript Technologies (Express, React, Angular, Node, Jest)
- Non-Relational Databases (Mongo)
- Git and GitHub
- Heroku for application hosting
- Hosting serverless functions on AWS Lambda

Projects

- **Meet App (<https://github.com/dagrimb/meet>)**
 - Developed a serverless, Progressive Web Application (PWA) built with React using Behavior- and Test-Driven Development, AWS Lambda serverless functions, OAuth2 authentication flow, and the Google Calendar API
- **Pokedex (<https://dagrimb.github.io/Pokedex/>)**
 - Built a responsive application to be used on all types of operating systems that allows users to retrieve the height and an image of all pokemen listed in the pokemon API by simply clicking a button with the name of the pokemon they wish to research.

Professional Experience

- **Cash Posting Specialist, Swedish Edmonds (2014 - 2020)**
 - Helped improve the departmental accuracy rate for insurance and payments posted to patient accounts.
 - Assessed random accounts to ensure accuracy vs. EOB during downtime.
 - Researched inquiries related to potential discrepancies between posted payments and insurance remittances by comparing the amount posted to the account in the EPIC healthcare system with the EOB or Electronic Remittance Advice in Change Healthcare's system.
 - Identified hospital deposits and Electronic Fund Transfers and transferred to finance spreadsheets in Excel.

- **Customer Service Representative - A/R, Swedish Edmonds (2006 - 2014)**

- Provided excellent customer service over the phone and in-person to approximately 50 people per day.
- Improved the overall quality of the customer service provided within the department by giving unmatched, non-judgmental compassion to customers.

Education

- **Certificate in Intro to Frontend Development & Full Stack Immersion**

- CareerFoundry, March 2021
- Intensive, project-based online training program with a focus on Javascript technologies

- **Bachelor of Arts in Communication**

- University of Washington, 2014
